Superintendent of R. G. W. Hands In His Resignation Effective On Monday.

W. E. MILLER TO SUCCEED HIM

Assistant Division Superintendent at Pueblo Will Arrive Tomorrow to Enter New Duties Here.

F. S. Elliott, superintendent of the Rio Grande Western, has handed in his resignation to General Superintendent A. E. Welby of the Denver & Rio Grande, and will leave early next week for the northwest, where he goes to the Great Northwestern. He will be succeeded here by W. E. Miller, assistant division superintendent, D. & H. G., who arrives tomorrow to enter upon his new duties.

The changes are effective Monday,

Aug. 12. Mr. Elliott has been with the Rio Grande since Jan. 17 last, when the office of superintendent of the Rio Grande Western was created for him with headquarters in Sait Lake. Prior to that time he was for eleven years in the employ of the Great Northern in various operating capacities.

Mr. Miller has the reputation of being a railroad man of experience and acumen, all of which he will need in the operation of the Rio Grande Western. With the huge ore shipments, through passenger business and general traffic handled by the Rio Grande and the amount of business coming up with the building of the Western Pacific, it will require a good man in Salt Lake. He will have grief enough in handling matters with the limited amount of motive power on hand.

Short Line Leases Two Floors in Des-

eret News Annex. Just as soon as the necessary alterations in the direction of tearing out partitions and instituting a number of improvements in the Descret News building and annex can be completed there will be sweeping changes in the location of a number of the general offices of the Oregon Short Line.

For some time past General Auditor McNitt has complained that his force has been restricted for space. Some moved into the fifth floor of the annex, but still there is not room. The Oregon Short Line has now leased the entire fifth floor of the annex, together with all of the fourth floor with the exception of the front rooms occupied by the Descret News reportorial staff. All partitions on these floors are to be out and the entire space is to be thrown

open into two huge offices.
Under the changes contemplated and ordered made the freight accounting department will occupy the fourth floor of the annex. The car accounting department will move to the quarters now occupied by the freight accounting department. The passenger accounting department will move to the fifth floor of the annex row occupied by the freight accounting department. of the annex now occupied by the ca accountants. The disbursements de partment will occupy the rooms on the fifth floor, where the passenger department is now located. The general auditor, general bookkeeper and pay clerk will move into the quarters now consider him to the quarters now occupied by the legal department, which will be moved to the fifth floor of the main building to the floor to be racated by the auditor.

PAYETTE IMPROVEMENTS. Connection Made With the New O. S.

L. Feeder in Idaho. The 80 men employed by the Oregon Short Line in laying side-tracks in the Payette railroad yards is rapidly bringing that work to completion. A mile and a quarter of new tracks is being put in and this week all the grading will be done and probably all the rails spiked, with the exception of the spur for the connection with the Payette Valley railroad, and a change which will be made in the spur extending to the cannery.

With the new tracks the switching room in the yard will be more than doubled. One of the new tracks extends a quarter of a mile or more on the east side of the depot, widening the yard considerably. There are also shorter sidetracks on that side of the depot. The remaining trackage is being built on the west side.

NEW TIME CARD.

The passenger department of the Sait Lake Route stinounces a change in the time card for trains between Salt Lake and Garfield. On Monday the following will go into effect: Leave Sait Lake at 7 a, m., 3 p. m. and 11 p. m., arriv-ing at Garfield respectively at 7:40, 3.40 and 11:40. Returning the trains will leave Garfield at 8:25 a. m., 5:10 and 12:20 a. m., arriving in Salt Lake at 9:05 a. m., 6 p. m., and 1 a. m.

BIG EXCURSION TO PROVO.

The Rio Grande is making great preparations for the transporting of the Scandinavians to Provo tomorrow It is anticipated that the Sanpete Valley branch alone will be responsible for over 1,000 people from the south, while the number that will go down from Salt Lake, from the Tintic district and other sections will bring the figures up to 2,000. Frank Groesbeck, tra-veling passenger agent for the Rio Grande and expert linguist, will personally conduct the excursions.

SPIKE AND RAIL.

The local lodges of the Switchmen's union are taking a day's enjoyment at Lagoon today.

J. W. Ellingson of the Salt Lake Route general agency, returned this morning from Los Angeles, where he escorted his sisters earlier in the week.

The Oregon Short Line has filed an application with the state engineer for the appropriation of ten second-feet of water to be taken from a reservoir near Sand Ridge cut, in the Weber river drainage area, and which is to be utilized in the Ogden yards along the lines heretofore published.

COMMITTEE MEETING.

Call Expected for Republicans This Afternoon to Select Chairman.

A call for a meeting of the Republican state committee is scheduled for this afternoon, though details of the same were not obtainable up to press time. When the committee meets, one of the principal matters to receive attention will be the selection of a new state chairman to succeed William Spry, who will tender his resignation on that occasion. Who will be chosen is a subject of much conjecture. Hon. James T. Hammond, and Hon. Stephen H. Love are two of the men most talked of for the chairmanship.

SUIT AGAINST MUTUAL.

Jessie D. Stephens Files Action to Recover Sum of \$1,000.

The Pacific Mutual Life Insurance company was made defendant in a suit filed in the district court today by Jessie D. Stephens to recover the sum of \$1,000 on an insurance policy held in said company by her husband, William F. Stephens, who died on July 7, 1906. Mr. Stephens was a conductor and brakeman in the employ of the San Pedro and at the time he applied for insurance he gave his occupation cor-rectly and the company issued the policy and accepted the premiums paid by him. After his death, however, it is alleged that the company refused to pay the policy for the reason that Stephens was engaged in a prohibited occupation. Plaintiff claims that the company, by accepting the application for insurance and accepting the pre miums paid by Stephens, and well knowing his occupation, is now knowing his occupation, is now estopped from setting up the claim that Stephens was engaged in a prohibited occupation and hence the pany is not liable for the policy. Judg-ment is therefore asked for the \$1,000 with interest from July 7, 1906.

RECEIVER APPOINTED. Action Filed Against the National Homeseekers' Association.

I. Lederer filed an action in the district court today against the National Homeseekers' association and Harold N. Fletcher asking that a receiver be appointed to take charge of the proper-ty of defendants. It is claimed that the ssociation is unable to meet its debts and that a receiver has already been appointed of its property in Colorado. Plaintiff alleges that he holds a contract in said association upon which he and his assignor have paid \$160.88, with the understanding that the association would, upon the performance of certain conditions, place him in possession of either a farm or residence of the value of \$1,000. The defendants, it is alleged, however, are unable to meet their obligations, and hence judgment is asked for the amount paid in by plaintiff and also that a receiver be appointed. Walter M. Apple, who gave \$5,900 bonds.

A Balloon Railroad.

Miles City...... 88 Winnip Modena 88 Yuma

There has recently been invented and put into operation in the mountains near salzburg, Germany, a balloon railroad. It consists of a stationary balloon, which is fastered to a slide runting alone a single steel rail. The rail is fastened to single steel rail. The rail is fastened to the side of a steep mountain, which ordinary railroads could not elimb, except through deep cuts and tunnels. The balloon floats about 25 feet over the ground, and a heavy steel cable connects it with the rail. The conductor can, at will, make the balloon side up and down the side of the mountain. For going up the mouve power is furnished by hydrogen ras, while the descent is caused by pressure of water, which is poured into a large tank at the upper end of the road, and which serves as ballast. Suspended from the balloon is a circular car with accommodations for 19 passengers. The cable goes from the bottom of the balloon through the center of the car to a regulator of speed, which is controlled by the conductor.—Harper's Weekly.
